

Remote Desktop to Windows Desktop from windows

Before you can start to take over your Windows Desktop at work, you need to do the following:

- Inform helpdesk@physics.leidenuniv.nl that you intend to use this functionality and provide:
 - The name of your desktop
 - Your Physics account name
- Check you personal Home Desktop of Windows Laptop for for any virusses or malware.
 - You have a certified Virusscanning software activated on your personal machine
 - You install and run the program Malware Bytes Free Addition and verify your machine is clean.
- Now you install the Tunneling software Tunnelier and follow the instrunction in
 - [the Tunnelier manual](#)
