

Remote Workspace

The Lorentz Institute provides all of its users with access to a virtual workspace which emulates the Institute physical workstations and their custom software setup by means of only a web browser without the installation of plugins or extra software. The immediate advantages to the users are

Access to the Lorentz Institute workstation setup from the comfort of your laptop, wherever you are, and without VPN or SSH tunnels
Access to your documents/files at the Lorentz Institute from a web browser window without installing extra software
Access to intranet services as you were physically located in your office

On this page you will find a short guide to get you started using IL Remote Workspace. The impatient can see these [example videos](#) (*accessible via intranet*).

Login to Remote Workspace

Browse to https://remote.lorentz.leidenuniv.nl <i>Any modern browser would do, but Firefox and Chrome are advised</i>	
Access by using your Lorentz Institute credentials <i>Your username is the part preceding the @ symbol</i>	
Several failed login attempts will cause your IP to be banned <i>To unblock your IP address contact the helpdesk</i>	
The <i>only</i> bookmark that will work is https://remote.lorentz.leidenuniv.nl <i>Other bookmarks will cause login errors</i>	

Using Remote Workspace

Dashboard

Start/monitor/manage your remote sessions via the Dashboard

View/edit/create/transfer files

The system GUI cannot handle large files (max 1GB is advised)

Quota information and server status

Do not ignore quota warnings, because many applications rely on free home space to work correctly

The server should be able to handle up to 20 concurrent remote sessions

Each interactive session allocates 4 CPUs and 16 GB RAM to a user

A user can only request 1 session per time

Files

Access your files by clicking on the Files dropdown menu on the toolbar

Different users have access to different file locations

Seamlessly manage files stored on the IL disks

Transfer files from/to your laptop using the browser

No extra software or browser plugins needed

The GUI does not to work well with large files (max 1GB)

Transfer large files from/to using your favorite sftp client to `ssh.lorentz.leidenuniv.nl`

Interactive Apps

Access Interactive Apps via the toolbar Interactive Apps menu or via the Quick Links buttons in the Dashboard. Choices are

- Lorentz Institute Workstation
- Jupyter Notebook

Workstations are preconfigured with several softwares

An interactive desktop or notebook (session) can last a max of 72 hours

Past that mark, it will be terminated

Connects to an unterminated (active) session is always possible even after logging out by clicking on My Interactive sessions toolbar menu

An interactive session tab reports

- *session remaining time*
- *allocated resources*
- *link to debugging files*

Active sessions can be terminated by clicking on the Delete button

The Session ID button will open a file browser to the session files

The screenshot displays the 'Lorentz Institute Workstation (61)' interface. At the top, it shows '1 node' and '4 cores' in a green status bar, followed by 'Running'. Below this, the host is 'remote.lorentz.leidenuniv.nl'. A red 'Delete' button is visible. The session was 'Created at: 2020-11-16 13:51:09 CET', has 'Time Remaining: 11 hours and 58 minutes', and a 'Session ID: 60523e98-9ac0-4f0c-af2f-788bc730571d'. There are two sliders: 'Compression' and 'Image Quality', both ranging from 0 (low) to 9 (high). At the bottom, there is a blue 'Launch Lorentz Institute Workstation' button and a 'View Only (Shareable Link)' button.
