Left click your network icon *on the right bottom*.

Click on Universiteit Leiden and click on Connect

Now you should see Connected under Universiteit Leiden.

When you don't see that there is something wrong with you VPN settings.

Go back to the VPN settings and change, and try this again.

When you see Connected you can now type **Remote Desktop** in the search bar.

Click on Remote Desktop Connection

Nemote [Desktop Connection	_		\times		
N	Remote Desktop Connection					
Computer:	Example: computer.fabrikam.com	~				
User name:	None specified					
The computer name field is blank. Enter a full remote computer name.
